INTRODUCTION and GENERAL INDEX

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, (publishers of the Goldsboro City Directory since 1906), present to subscribers and the general public, this, the 1956 edition of the Goldsboro City Directory.

Confidence in the growth of Goldsboro's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Goldsboro to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Goldsboro Directory will fulfill its mission as a source of authentic information pertaining to the city.

Four Major Departments

The four major departments are arranged in the following order:—

I. THE YELLOW PAGES constitute the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of the city, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Yellow Pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like Goldsboro, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Goldsboro, and the name, official personnel, nature and address of each firm and corporation in the city.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, printed on pink paper, is the third major department. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical

order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephones.

IV. THE NUMERICAL TELEPHONE DIRECTORY, printed on blue paper, is the fourth major department.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Goldsboro.

The Goldsboro Directory Library

Through the courtesy of the publishers of the Goldsboro City Directory, a Directory Library is maintained in the offices of the Goldsboro Chamber of Commerce and Merchants Association, for free reference by the general public. This is one of more than 700 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

Lodges and fraternal organizations include the Elks, Masons, Odd Fellows, Woodmen of the World, Moose, Pythians, and Shriners.

Recreation—Recreation for the youth of Goldsboro centers around the Wayne County Memorial Community Building. The building has an indoor pool, gymnasium, banquet room, several meeting rooms and provides office space for the Boy and Girl Scouts, Red Cross and Community Chest. A recreation field, one and one-half miles from the building has baseball and softball diamonds, football field and an outdoor basketball court. The director of the Community Building carries on a year-round program.

The city of Goldsboro has a recreation commission with five members.

The Colored Community Center has a large meeting hall and gymnasium combined, meeting rooms and a full time director.

Herman Park, 19 acres, has six tennis courts, playground equipment and amusement rides. In addition, three white and three colored schools have playgrounds with equipment.

The "Cliffs of the Neuse" State Park, located 13 miles southeast of Goldsboro, is a very popular recreation spot for the people of this area. There are 312 acres in the park with paved roads, trails and paths leading to all parts of it. Chief attraction is the view from the 98 feet high cliffs. There are several picnic areas with outdoor fire places. A lake for fishing and swimming was completed in 1955.

There are three lakes for swimming, besides the indoor pool, located five to twelve miles from the city: four theatres, including one colored, with seating capacity of 2,035 and two drive-ins with car capacity of 450; five billiard parlors with twenty-four tables, an 18-hole municipal golf course; country club; two stadiums: Goldsboro High School and the Goldsboro Municipal Stadium. Two men's leagues play softball during the summer months.

Hunting and fishing are popular sports for Goldsboro residents. Fishing is excellent in the nearby Neuse and Little rivers, bass, brim, rock, robbin, and catfish. For the hunter there are rabbits, squirrel, quail and foxes.

North Carolina beaches are only three hours away. Fishing and hunting are excellent along the coast and boating is a popular sport in the protected sounds and on the ocean.

WHY A BUYERS' GUIDE?

★ It is customary to include a Buyers' Guide in the City Directory because !!!

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . **EXTENDED**

★ *Out of Business* ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

★

The City Directory is the natural medium for keeping a business or product name in the spotlight.
Insist on being well represented in its pages.

Local Distributor**107 W. Chestnut****Tel. 1065****PLEASE! Do Not Lend Your
CITY DIRECTORY****IT COSTS YOU MONEY—Every Time it Is Loaned**

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

**Do your employers furnish you with
the latest edition of the City Directory?**

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

CAUTION . . .

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

 The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

DIRECTORY SYMBOLS AND DESIGNATIONS

IN ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.

Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

Your City Directory Contains:

- 1** An *Alphabetical* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.
- 2** A *Householders' Directory* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.
- 3** A *Classified Business Directory*—listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.
- 4** A “Yellow Section” or *Buyers' Guide*, where the advertiser may explain in greater detail the services or products he has to offer.
- 5** A *Statistical and Historical Story* of your city; plus miscellaneous other information.

HILL'S GOLDSBORO

Directory of Householders, Occupants of Office Build-
ings and Other Business Places, Including a
Complete Street and Avenue Guide

1956

Copyright, 1956, by Hill Directory Co., Inc.

In the following list the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes nor responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Figures in parenthesis denote old numbers.

The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.

This section includes some listings reading "No return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next a double postal card was mailed and the telephone used when possible.
